

Comfeze Cow Mats

Humane also offers solid mats with 2 different top surfaces, Diamond or Button. Choose from 3/8", 1/2" or 3/4" thickness. We recommend 3/4" mats for Stalls. Our 1/2" Diamond mats are great for Trailers, and our 1/2" Button can be used for extra traction in Wash Racks, Walkways, or Alley Ways. Our 3/8" Diamond mats can be used as Sidewall Liners. All mats are easy to install, totally non-absorbent, and will not harbor or promote bacterial growth.

Standard Size Mats: (custom sizing available)

48 x 72 x 1/2" Diamond or Button Surface

48 x 72 x 3/8" Diamond or Button Surface

48 x 72 x 3/4" Diamond Surface

48 x 66 x 3/4" Diamond Surface

48 x 60 x 3/4" Diamond Surface

1907 - Humane Mfg established as a Metal Fabricating company for Dairy Barn Equipment in Baraboo Wisconsin

1972 - Started molding rubber mats for animal stalls and weight rooms in new 44,000 sq ft facility in Baraboo Wisconsin

1992 - Acquired Water-Jet capabilities and developed Loktuff interlock stall and flooring systems

1997 - New owners acquired 2nd plant for rubber molding operation, sold metal division and became more diversified in rubber mat molding for Equine, Dairy, Fitness, Roof Gard, Anti-fatigue, and Special OEM products both Nationally and Internationally

2003 - Relocated 2nd plant to an 83,000 sq ft facility in Janesville Wisconsin

2004 - To date, Humane recycles about 20,000,000 pounds of rubber tire material that would otherwise go into landfills

Customer Testimonial

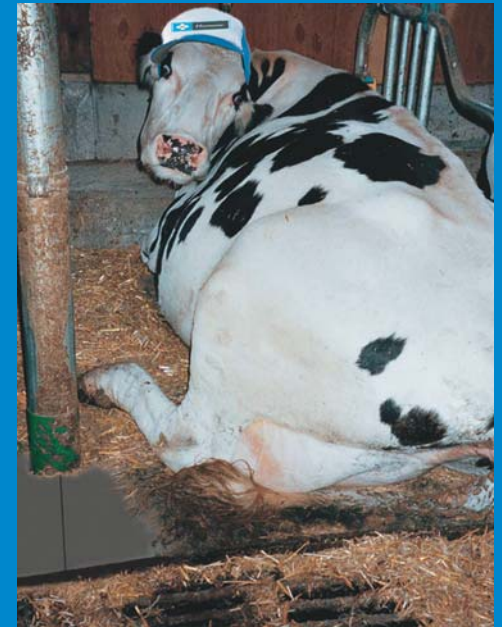

"We purchased the "Supreme Comfort Pads" from you last spring and are thoroughly pleased with this product. Our cows are milking about **20% more**, we don't have **any** sore, banged up legs. The cows are very clean and our somatic cell count is consistently under 120,000. Your product is the best investment we've made in a long time. Our cows are very comfortable and they're lying down, eating, or in heat. Thank you so much for your great product - **My girls** send their thank you too!"

Sincerely, Cindy Jones and Girls

Jones Brothers Farms, Minnesota

Are Your Girls This Comfortable??

Rest assured, they could be.....

....with Humane Supreme Comfort Pads

Now, more than ever, Dairy Farmers realize that for cows to reach their maximum genetic potential, they need a comfortable, relaxing environment. Cows should be provided a save comfortable area to lie, ruminate and chew their cud. Only when this down time occurs can the process be complete and financially beneficial to the farmer. Humane can help you achieve that goal with our Supreme Comfort Pad

Free Stall, Tie Stall, or Stanchion Barns!!!!
Easy to install, anchors available.
